Art Unit 1203

The claims in the application are claims 1-32.

The 1, 2 thiazine type of claim 19 are rejected as not being patentably distinct from the claims of the parent application Serial No. 07/775,313.

Claims 19, 23, 27 and 32 are provisionally rejected under 35 USC 101, as the statute provides for a patent therefore, as Serial No. 07/775,313 has been allowed.

This application has been found to contain more than one invention. Therefore, restriction to one of the following distinct inventions is required:

- (I) Claims 1 et seq. that are non-fused thiophines in Class 549.
- (II) Claims 19 et seq that are 1, 2 thiazines in Class 544.

These distinct inventions have acquired separate status in the art, will support separate patents, and will require different fields of search for the respective inventions. Accordingly, restriction for examination purposes as indicated is considered proper; 35 U.S.C. 121; 37 CFR 1.141 and 37 CFR 1.142.

Applicants' response must include a provisional election if the requirement be traversed, see 37 CFR 1.142 and 1.143.
